

Aircraft & Aerospace Industry – Fluid-Cell Tools – Boards

Fluid-Cell Tools			
Milling	Boards	WB-1000	Density 1.00 g/cm ³ , beige Good mechanical properties Easy to machine
		WB-1600	Density 1.6 g/cm ³ , ivory Excellent mechanical properties Easy to machine Good tribological properties
		WB-1700	Density 1.7 g/cm ³ , dark gray Very high mechanical properties Excellent surface structure Excellent mechanical properties Excellent tribological properties Well suited to form aluminium, high-grade teel and high strength steel
