

# Automotive Industry – Job 1 Bodywork – Laminating with Fibres

<b>Job 1 Bodywork</b>			
<b>Laminating parts</b>	<b>Laminating Resins</b>	EL-2201 / EH-2904-1	RT cure, unfilled, fast reactivity
		EL-2201 / EH-2905-1	RT cure, unfilled, medium reactivity
		EL-2201 / EH-2906-1	RT cure, unfilled, slow reactivity
		EL-2203 / EH-2952-1	Good impregnation of glass/carbon fibres Fast reactivity. Temperature resistant (120°C).
		EL-2203 / EH-2953-1	Properties are the same as with EH-2952-1, slow reactivity
<b>Resin Infusion</b>		EL-2203 / EH-2970-1	Low viscosity, no degassing under vacuum, excellent wetting properties, flows very well, good cure at room temperature, temperature resistant up to 120°C.
		EI-2500 / EH-2970-1	Temperature resistant (115°C), good impregnation, resin infusion
		EI-2504 / EH-2974	Excellent wetting properties, flows very well, temperature resistant up to 170°C.
