

Automotive Industry – Jigs & Fixtures – Boards

Jigs & Fixtures			
Milling	Boards	MB-0720	Density 0.72 g/cm ³ , brown, good dimensional stability, good compressive and flexural strength
		WB-1000	Density 1.00 g/cm ³ , beige, very easy to machine, good edge strength and good abrasion resistance
		WB-1404	Density 1.4 g/cm ³ , olive, very easy to machine, dense surface structure, good dimensional stability
		WB-1600	Density 1.6 g/cm ³ , ivory, easy to machine, low coefficient of thermal expansion
		WB-1700	Density 1.7 g/cm ³ , dark gray, easy to machine, high temperature resistance
