

Automotive Industry – Metal Forming Tools – Face Casting

Metal Forming Tools			
Casting	Face Casting	EC-2402 / EH-2905-1	With metal fillers Low viscosity Good mechanical properties Medium reactivity Suitable for front casting on cast iron; kirksite; quartz sand core
		EC-2402 / EH-2906-1	Same properties and applications as with EH-2905-1 Slow reactivity
		EC-2402 / EH-2902	Same applications as with EH-2905 / EH-2906-1 Material is more impact resistant Medium viscosity
