

Automotive Industry – Metal Forming Tools – Close Contour Casting

Metal Forming Tools			
Milling	Close Contour Casting	CC-6015	Density 1.07 g/cm ³ , beige Good mechanical properties Easy to machine Prototype tools
		CC-6504	Density 1.87 g/cm ³ , beige Excellent mechanical properties Easy to machine Good tribological properties Prototype and small series tools
		CC-6505	Density 1.87 g/cm ³ , light gray Excellent mechanical properties Easy to machine Prototype and small series tools Good tribological properties Use mainly for stretch dies: Excellent mechanical properties Excellent tribological properties
		CC-6506	Density 1.9 g/cm ³ , dark gray Very high mechanical properties Excellent surface structure Well suited to form aluminium, stainless steel and high-grade steel for prototypes and small to medium series
