

Automotive Industry – Metal Forming Tools – Boards

Metal Forming Tools			
Milling	Boards	WB-1000	Density 1.00 g/cm ³ , beige Good mechanical properties Easy to machine Prototype tools
		WB-1600	Density 1.6 g/cm ³ , ivory Excellent mechanical properties Easy to machine Good tribological properties Prototype and small series tools
		WB-1700	Density 1.7 g/cm ³ , dark gray Excellent mechanical properties Excellent surface structure Excellent tribological properties Well suited to form aluminium, stainless steel and high-grade steel for prototypes and small to medium series
