

Automotive Industry – Hammer Forms – Backing / Tamping

Hammer Forms			
Lay up	Surface	PC-3451 / PH-3952	High abrasion and impact resistance Shore D 50-55 Good interlayer adhesion with Epoxy resins
	Coupling Layer	EL-2200 / EH-2900	Binding resin for coupling layer with quartz flour and aerosil
	Backing	EL-2200 / EH-2900	Binding resin for quartz sand mixture (tamping mixture), high degree of filling possible
