

Automotive Industry – Prototypes (parts) – Full Casting

Prototypes (parts)			
Casting with low pressure mix and metering equipment	Full Casting Prototypes / Functional Parts	PR-3600 / PH-3900	Simulates rubber, Shore A 80-85
		PR-3600 / PH-3904	Simulates rubber, Shore A 65-70
		PR-3602 / PH-3904	Simulates PE/PP, high impact resistance, Functional parts, bumpers etc.
		PR-3602 / PH-3905	Simulates PE/PP, good temperature resistance (90 C) Functional parts, bumpers etc.
		PR-3603 / PH-3904	Simulates PP / ABS, short demold time, good elastic memory, Shore D75-80
		PR-3603 / PH-3905	Simulates PP / ABS, short demold time, good elastic memory, Shore D70-75 Functional prototype parts, short run production, rapid prototyping
		PR-3608 / PH-3905	Simulates PP / ABS, short demold time, temperature resistant (130-135 °C), Shore D 75-80
		PR-3652 / PH-3905	Simulates PP / ABS, short demold time, temperature resistant (130 °C), glass fiber filled, Shore D 75-80
		PR-3654 / PH-3905	Simulates PP / ABS, short demold time, temperature resistant (130 °C), glass fiber filled, Shore D 80-85
