

Automotive Industry – Galvanobath Models – Close Contour Casting

Galvanobath Models			
Milling	Leather masters Bath Models fine surface	CC-6010	Density 0.8 g/cm ³ , brown Models for the slash molding process to produce nickel bowls Seamless For full and shell casting Generally for bath models
		CC-6015	Density 1.07 g/cm ³ , beige Models for the slash molding process to produce nickel bowls Seamless, fine surfaces For full and shell casting Generally for bath models
		CC-6503	Density 1.85 g/cm ³ , blue Very fine homogeneous surface Little finishing of the nickel bowl Easy to machine Low thermal expansion For full and shell casting Specially developed for bath models
