

Foundry Industry – Models / Pattern Plates – Boards

| Models / Pattern Plates | | | |
|-------------------------|--------|---------|---|
| Milling | Boards | WB-1000 | Density 1.0 g/cm ³ , beige, easy to machine, low coefficient of thermal expansion |
| | | WB-1222 | Density 1.22 g/cm ³ , green, easy to machine, good edge strength, high abrasion resistance |
| | | WB-1404 | Density 1.40 g/cm ³ , olive, very easy to machine, low coefficient of thermal expansion, can be polished High abrasion resistance and impact strength |
