

## Foundry Industry – Core Boxes – Boards

Core Boxes			
Milling	Boards	WB-1000	Density 1.0 g/cm <sup>3</sup> , beige, easy to machine, low coefficient of thermal expansion
		WB-1222	Density 1.22 g/cm <sup>3</sup> , green, easy to machine, good edge strength, high abrasion resistance
		WB-1404	Density 1.40 g/cm <sup>3</sup> , olive, very easy to machine, low coefficient of thermal expansion, can be polished High abrasion resistance and impact strength
