

# Plastics Industry – Vacuum Forming Molds – Backing - Tamping

Vacuum Forming Molds			
Lay-up	Gelcoats (Surface)	EG-2104 / EH-2950	Very easy to apply Temperature resistant up to 105 C
		EG-2105 / EH-2950	Very easy to apply Temperature resistant up to 120 C
	Coupling Layer	EL-2209 / EH-2950	Coupling layer between gelcoat and tamping mixture
	Backing	EL-2203 / EH-2952-1	Low viscosity Very high degree of filling possible, e.g. aluminium powder Temperature resistant up to 120 C
		EL-2203 / EH-2953-1	Like EL-2203 / EH-2952-1 but lower reactivity
